The **home visiting collaborative improvement and innovation network** (HV CoIIN) brings together Maternal, Infant, and Early Childhood Home Visiting awardees and local agencies to develop, test, and implement changes in topics ripe for improvement. These well-tested interventions are then scaled to home visiting agencies across the country to improve maternal and child health outcomes for families in home visiting.

**What is HV CoIIN?**

Since 2013, HV CoIIN has impacted:

- **10,362 families**

And partnered with:

- **21** STATES/TERRITORIES
- **1** TRIBAL NATION
- **136** HOME VISITING AGENCIES

---

**So far [in HV CoIIN 2.0], we have had 19 out of 23 mothers report symptom improvement. We’re so excited about that, and we really attribute a lot of that to HV CoIIN. . . It has been a huge asset.**

–HV CoIIN 2.0 State Awardee

---

**HV CoIIN Builds Awardee Capacity**

Awardees consistently demonstrate increased knowledge in all CQI areas, with the most notable increases in the fundamentals of improvement work, including PDSAs, run charts, and key driver diagrams.

**HV COIIN Awardees Reported**

- *a twofold increase* in their knowledge of PDSA cycles
- *a threefold increase* in their knowledge of Run Charts
- *a fivefold increase* in their knowledge of KDDs
### Topics and Current Progress:

#### Intimate Partner Violence (IPV):

**AWardees:** MA, MI, MN, OR, SC, WA; LIAs: 18

**Progress:**
- **80%** of caregivers offered supports or services more than 60 days ago receive follow-up from home visitor (baseline 70%)
- **95%** of home visitors and home visitors supervisors are trained in basic competencies in IPV and related topics (baseline 62%)

#### Breastfeeding:

**AWardees:** PA, MI, RI, OH, WI, FL, VA; LIAs: 16

**Progress:**
- **95%** of home visitors trained in infant feeding and lactation (baseline 50%)
- **61%** of mothers initiated breastfeeding (baseline 47%)

#### Maternal Depression:

**AWardees:** AL, LA, RI, WV; LIAs: 48

**Progress:**
- **85%** of women who screen positive for depression and access services report a 25% reduction in symptoms in 12 weeks from 1st service contact (baseline 65%)
- **100%** of team members reviewed and used CQI data in practice to improve maternal depression services and processes (baseline 78%)

#### Well Child Visits (WCV):

**AWardees:** AL, RI, WI, WV; LIAs: 11

**Progress:**
- **71%** of children received last expected WCV (baseline 41%)
- **98%** of home visitors trained in WCV periodicity, content, approach, and follow up protocol (baseline 94%)

#### Developmental Promotion, Early Detection, and Linkage to Services:

**AWardee:** NJ; LIAs: 6

**Progress:**
- **98%** of families get developmental surveillance at each home visit (baseline 93%)
- **100%** of team members use CQI data in practice (baseline 90%)

---

**Parent Leadership Across Topics**

> Our parent leadership journey has been phenomenal. None of our teams started with any parent leadership. Now, all six teams have at least one active and involved parent leader.

- HV CoIIN 2.0 State Awardee

**Benefits of engaging parents as leaders:**
- Prioritizing work that provides **direct value** to participants and reduces efforts that do not add value
- Sharing data to **build trust** and increase satisfaction of services offered
- Testing innovations that stem through **lived experiences**
- Expanding capacity and **improving quality** of services delivered
