

## What is HV CollIN?

The **home visiting collaborative improvement and innovation network** (HV CollIN) brings together Maternal, Infant, and Early Childhood Home Visiting awardees and local agencies to develop, test, and implement changes in topics ripe for improvement. These well-tested interventions are then scaled to home visiting agencies across the country to improve maternal and child health outcomes for families in home visiting.

Since 2013, HV CollIN has impacted:

**10,362 families**

And partnered with:

**21**

STATES/  
TERRITORIES

**1**

TRIBAL  
NATION

**136**

HOME VISITING  
AGENCIES

*So far [in HV CollIN 2.0], we have had 19 out of 23 mothers report symptom improvement. We're so excited about that, and we really attribute a lot of that to HV CollIN. . . It has been a huge asset.*

—HV CollIN 2.0 State Awardee

## HV CollIN Builds Awardee Capacity

Awardees consistently demonstrate increased knowledge in all CQI areas, with the most notable increases in the fundamentals of improvement work, including PDSAs, run charts, and key driver diagrams.

## HV COLLIN AWARDEES REPORTED

**a twofold increase** in their knowledge of PDSA cycles

**a threefold increase** in their knowledge of Run Charts

**a fivefold increase** in their knowledge of KDDs

# Topics and Current Progress:

## Intimate Partner Violence (IPV):

**AWARDEES:** MA, MI, MN, OR, SC, WA; LIAs: 18

### PROGRESS:

**80%**

of caregivers offered supports or services more than 60 days ago receive follow-up from home visitor (baseline 70%)

**95%**

of home visitors and home visitors supervisors are trained in basic competencies in IPV and related topics (baseline 62%)

## Maternal Depression:

**AWARDEES:** AL, LA, RI, WV; LIAs: 48

### PROGRESS:

**85%**

of women who screen positive for depression and access services report a 25% reduction in symptoms in 12 weeks from 1st service contact (baseline 65%)

**100%**

of team members reviewed and used CQI data in practice to improve maternal depression services and processes (baseline 78%)

## Developmental Promotion, Early Detection, and Linkage to Services:

**AWARDEE:** NJ; LIAs: 6

### PROGRESS:

**98%**

of families get developmental surveillance at each home visit (baseline 93%)

**100%**

of team members use CQI data in practice (baseline 90%)

## Breastfeeding:

**AWARDEES:** PA, MI, RI, OH, WI, FL, VA; LIAs: 16

### PROGRESS:

**95%**

of home visitors trained in infant feeding and lactation (baseline 50%)

**61%**

of mothers initiated breastfeeding (baseline 47%)

## Well Child Visits (WCV):

**AWARDEES:** AL, RI, WI, WV; LIAs: 11

### PROGRESS:

**71%**

of children received last expected WCV (baseline 41%)

**98%**

of home visitors trained in WCV periodicity, content, approach, and follow up protocol (baseline 94%)

## Parent Leadership Across Topics

*Our parent leadership journey has been phenomenal. None of our teams started with any parent leadership. Now, all six teams have at least one active and involved parent leader.*

*- HV CoIIN 2.0 State Awardee*

### Benefits of engaging parents as leaders:

- Prioritizing work that provides **direct value** to participants and reduces efforts that do not add value
- Sharing data to **build trust** and increase satisfaction of services offered
- Testing innovations that stem through **lived experiences**
- **Expanding capacity** and **improving quality** of services delivered
