

Change Champions Series

Well Child Visits

Together, Let's Empower Families and improve attendance to Well Child Visits!

Join the movement to transform home visiting systems and make a lasting impact on the outcomes that matter most to families.

What Will We Do?

Embark on an exciting 12-month journey with Education Development Center (EDC) and partners as we lead a Collaborative Improvement and Innovation Network (CoIIN) dedicated to scaling best practices for supporting families to complete recommended well child visits (WCV). MIECHV Awardees and Local Implementing Agencies (LIAs)—this is your opportunity to be champions for change!

Shared Aim: By March 2026, 75% of children enrolled in home visiting receive their last expected well-child visit on time, based on the American Academy of Pediatrics schedule.

What is a CoIIN?

A CoIIN is your entry to collaboration, innovation, and improvement. It brings together MIECHV awardees and LIAs around a shared mission, empowering teams with:

- **Expert coaching and support** from seasoned improvement advisors.
- **Proven tools and strategies** to bridge service gaps with speed and impact.
- A dynamic, peer-driven network to **share, learn, and grow together**.

This **free, voluntary improvement initiative** offers everything you need to tackle challenges, center health equity, and amplify the power of well child visits.

Why Join Now?

Here's how participating will transform your team and outcomes:

- **Achieve MIECHV CQI Plan goals** while driving equity-focused improvements.
- **Build CQI expertise** through hands-on guidance in forming diverse teams, analyzing program data, and adapting and testing change ideas through Plan-Do-Study-Act cycles.
- **Connect with peers** in a vibrant CQI Lead and Awardee Community of Practice to share insights, successes, and solutions.
- **Access powerful, proven interventions** that streamline your efforts and maximize your impact.
- **Empower your team** with cutting-edge tools, expert resources, and multilingual support—including real-time Spanish interpretation during calls.
- **Gain confidence** in implementing evidence-based practices that lead to long-lasting, breakthrough change.

"Often times, CQI state leads can feel like they are operating all by themselves at work so it's really nice to have that peer support and learn from others in their same role."

Who Can Apply?

- **All MIECHV awardees**, along with their chosen LIAs, passionate about driving improvement in well child visits.
- Applications must be submitted by a MIECHV CQI lead on behalf of their team.

"The most important thing I've learned about building relationships with primary care providers is how having these relationships ensures a better experience for families."

Timeline:

- **December 3, 2025:** Attend the Application Webinar to learn more (2–3 PM EST).
- **January 17, 2025:** Application deadline—apply in just **10–15 minutes!**
- **March 2025:** Awardee orientation call and preparation period kicks off.
- **April 2025:** LIA participation officially begins.

“Compared to before the CoIIN, we now have conversations with parents about what to expect before the well-child visits and discuss their reactions afterwards.”
